

User Stories

- New users can create a new account by entering their email and password
- Returning users can log in by using their email and password
- If a user forgets their password, they can enter their email to reset their password
- After successfully logging in, users are taken to the home page
- After creating an account, new users are taken to the account personalization page

User Interface Models

Create Account UI

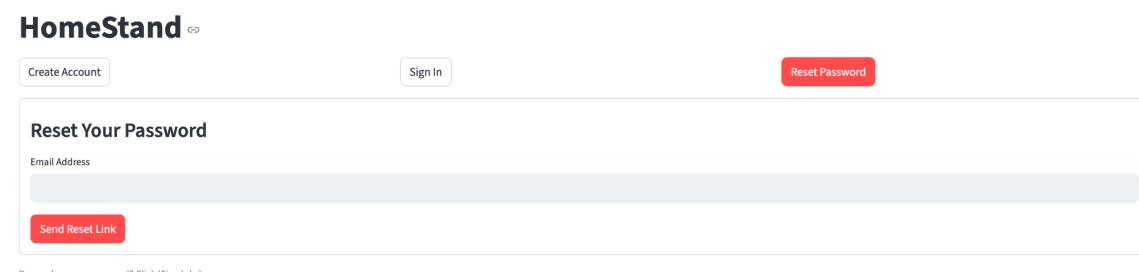

The screenshot shows the 'Create Your Account' form for HomeStand. At the top, there are three buttons: 'Create Account' (red), 'Sign In' (grey), and 'Reset Password' (grey). The form has three input fields: 'First Name', 'Email Address', and 'Password'. Below the password field is a visibility toggle icon (eye) and a 'Join Now' button (red). At the bottom left, a note says 'Already have an account? Click "Sign in" above'.

Sign In UI

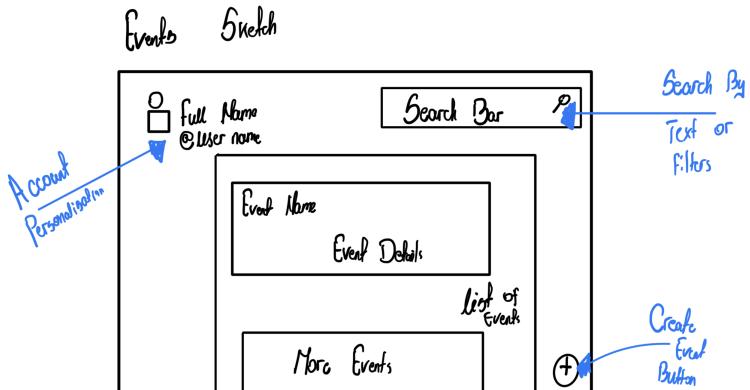

The screenshot shows the 'Sign In to Your Account' form for HomeStand. At the top, there are three buttons: 'Create Account' (grey), 'Sign In' (red), and 'Reset Password' (grey). The form has two input fields: 'Email Address' and 'Password'. Below the password field is a visibility toggle icon (eye) and a 'Continue' button (red). At the bottom left, a note says 'Need an account? Click "Create Account" above'.

Reset Password UI

The screenshot shows the 'Reset Your Password' form for HomeStand. At the top, there are three buttons: 'Create Account' (grey), 'Sign In' (grey), and 'Reset Password' (red). The form has one input field: 'Email Address'. Below it is a 'Send Reset Link' button (red). At the bottom left, a note says 'Remember your password? Click "Sign In" above'.

After Successful Sign Up / Log In Pages. More Details to be added in Sprint 2 Artefacts

Account Personalisation (After Sign UP)
Proof Of Concept, Subject To Change
